## Professional Summary

---

Experienced and skilled Angular Developer with 4+ years of experience in developing dynamic and responsive web applications. Proficient in front-end technologies including Angular, TypeScript, JavaScript and HTML5, CSS3. Excellent teamwork skills, with a proven track record of delivering high quality projects on time.

## Work Experience

---

### Technology Analyst (Angular Developer)

Infosys Limited | Pune, India.

June 2021-Present

#### Roles & Responsibility:

- Developed and maintained scalable and responsive web applications using Angular framework.
- Developed an end-to-end solution for handling recurring production alerts and tickets, reducing manual efforts by 50%.
- Implemented reactive forms, custom directives, pipes, and services for reusable, modular architecture and cleaner codebase.
- Integrated RESTful APIs using Angular HTTP Client to fetch and render real-time data across multiple components.
- Collaborated with cross-functional teams including backend developers to implement new features and improve existing functionality.
- Supported migration activities from ColdFusion to Angular by analyzing ColdFusion components, identifying reusable business logic, and converting them into Angular services and components.
- Maintaining and debugging code. Wrote Unit test cases using Jasmine and karma for improving code coverage.
- Actively contributed to hotfixes and participated in code review, ensuring that we met tight release deadlines.
- Participated in Agile development process, attending daily stand-ups and contributing to sprint planning and retrospective meetings.

## Skills

---

- **Web Technologies/Frameworks:** Angular, JavaScript, TypeScript, HTML, CSS
